MEMORANDUM FOR: BRIGADIER GENERAL MILLARD C. YOUNG
 CHIEF, JOINT SUBSIDIARY PLANS DIVISION
 JOINT CHIEFS OF STAFF

SUBJECT: Evasion and Escape Symposium Report of SAC

In your Office Memo sending me the Symposium Report you asked: "Is all this done in conjunction with CIA or are these people going off unilaterally again?" I think this symposium at which information was exchanged, especially between SAC units, was a logical meeting and I don't think that it cuts across any of CIA's responsibilities. The largest part of the discussion in the Symposium covered overt aspects of E&E such as the Manual Project now underway by Air University.

25X1

basis. By this type of an agreement we are endeavoring to bring CIA and USAF into logical and harmonious working relationships in which the interests of both parties are covered. We have a good way to go but I think that we are pointed in the right direction.

Thank you for sending me the Symposium Report. It has proved helpful.

Incidentally I rather expect that Army and possibly Navy would be interested in the manual being prepared at the Air University (See Page 48 of the attached report). Possibly arrangements have been made to supply them with copies.

Incl:

Rpt of E&E Symposium
 (2nd. w/ orig only)

2. The following points may be of interest to DDCI:

STAT

[REDACTED]

b. The Air University Evasion and Escape Manual, an encyclopedia covering geography, climate, vegetation and habits of the people of some twenty regions, now is underway and should be completed in 2-3 years. Appropriate CIA office will maintain contact with Air University in an effort to insure maximum utilization of this extensive study. (For details of the AU project see Page 48 of Symposium Report.)

3. In his office memo to General Cabell, General Young asks: "Is all this done in conjunction with CIA or are these people going off unilaterally again?" A suggested office memo in reply to General Young is attached.
